

## **Induction Requirements & Conditions:**

- **All workers must not turn up for an induction, if they are not well,** awaiting a covid test result, have been instructed by Healthline to stay at home & isolate for a required time period and until a negative test is confirmed.
- **All Workers must bring along their own and wear a face mask for the induction and when arriving at the site location.** No scarves or bandanas are to be used as masks.
- **Currently under Red light in the Traffic Light System, please only book in workers that are essential/urgent**
- **Please restrict bookings of your workers to a limit of 5 per company per session, to provide spaces to other companies that need to utilise this.** If there is a need for greater than 5 workers, please obtain authorisation from EHS team, in advance of booking.
- All workers are advised to bring along their own pens to use at the induction
- **All workers must physical distance (1.5m minimum at work site & during induction and 2m while in public spaces/ outside areas or Smoko/lunch areas).**
- **Workers must understand and be proficient in English to complete induction.** In the event that a worker cannot speak or understand English, the **company employing them are required to book in a translator with worker**, so they can translate the message to their workers. If this is not provided by the company, the worker will be turned away from the induction. This will be at the inductor's discretion.
- **Workers are to bring with them to the induction their current Site safe/construct safe card and provide evidence upon request to inductor on arrival.**
- 
- **Please ensure that your workers turn up to the induction ready and equipped with the necessary mandatory PPE/ RPE needed to start work on site.**
